- Practice cover tunes with the best recordings.

Friends and Lovers

- Make a special recording or Karaoke track for a special friend.
- Create your own love song.

Karaoke STUDIO

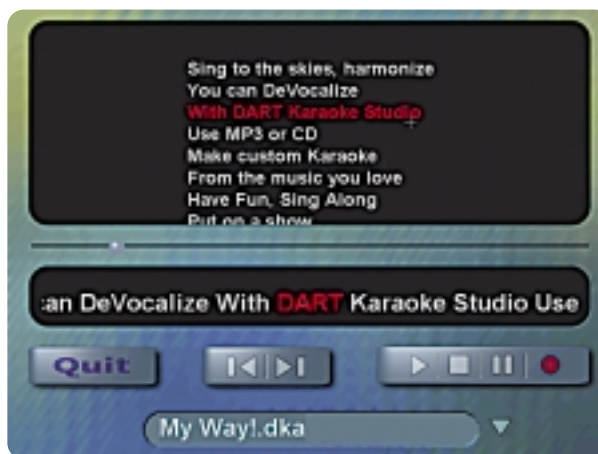

For Windows

Make custom Karaoke on your computer from CDs or MP3

From the makers of DARTPRO, the "legendary" Digital Audio Restoration Technology

- Remove the Main Vocal From Most Stereo Recordings
- Synchronize Lyrics with Music
- Full Screen Playback Display
- Sing-Along and Record Your Performance

Karaoke Studio's player screen puts you in control. Select a song; then play back, sing along, or record as the lyrics scroll by.

3 Ways to Love DART Karaoke Studio

- 1. Create and Play Custom Karaoke on Your Computer**
Add lyrics for display in time to the music.
- 2. Create Instrumental Only Tracks**
Remove the main vocal from most stereo recordings, then play it on your computer or burn it to an Audio CD (CD-R required).
- 3. Record & Mix Your Singing with Your Favorite Artists**
Record while you sing along, then mix your performance with the original track or with the Karaoke track you make in DART Karaoke Studio.

FREE DART CD-Recorder Rip and Burn software

DART CD-Recorder Basic. The fastest way to capture and record quality music for custom CD's.

Sweeten the Sound™ with DART!

Karaoke

*Make Custom Karaoke On Your Computer
From CDs Or MP3*

**Only DART Karaoke Studio
Provides This Much Musical Fun
and Flexibility!**

**Use Today's Newest Tunes or Oldies
You Love**

Record music from records, tapes, CDs or Internet MP3.

Import or Type-In Lyrics

Use the original lyrics or type them as you play the track. Create new lyrics for your favorite tunes!

Synchronize Lyrics To the Music

Line-up the words with the music. It's easy. The lyrics show up to guide you through a song.

Sing-Along or Record Your Performance

Have fun solo or with friends. Select your songs and play Karaoke. To record your performance, click the red button and sing along.

Now, DeVocalize

DART Karaoke Studio's DeVocalizer™ makes the main vocal virtually disappear. The vocal performance of most stereo recordings is removed or reduced to a whisper, just enough to guide your singing.

Remix: Add Your Performance To the Track

Want to hear how you sound with that music? Mix your recorded singing with your favorite track. You may mix your voice with the original artist or the DeVocalized™ recording. It's your choice. Save the mix on your hard drive or burn your own CD.

Make Custom Karaoke Audio CDs

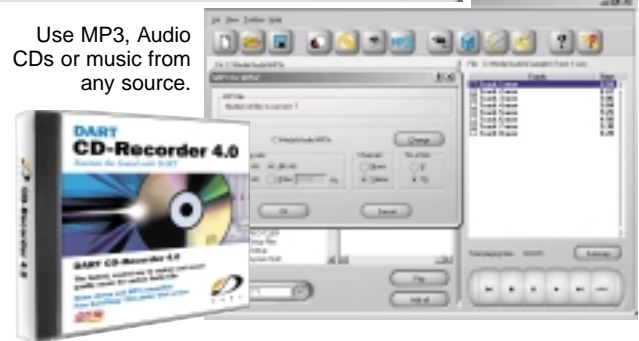

DART CD-Recorder is the easiest to use Rip and Burn Software available. Records from analog or digital sources. Supports numerous CD-R/RW. Arrange tracks in the order you want.

Pop-up
guide makes
Karaoke easy

Help Screens for every step. DeVocalizer removes vocal performance from most commercial recordings.

Use MP3, Audio
CDs or music from
any source.
